and present them to the DUSD(R&AT) each year.

§ 190.7 Information requirements.

Information requirements of the ASD(P&L) shall be met by the Heads of the Military Services each year by January 15 under Report Control Symbol DD-P&L(A)1485.

APPENDIX TO PART 190—INTEGRATED NATURAL RESOURCES MANAGEMENT

A. Integrated Planning

1. Integrated natural resources management plans shall be maintained for properties under DoD control. These plans shall guide planners and implementors of mission activities as well as natural resources managers.

2. The plans shall be coordinated with appropriate Federal, State, and local officials with interest or jurisdiction in accordance with 32 CFR part 243 and with planners of DoD activities that impact on the natural resources. Conversely, new and continuing mission activities that impact on natural resources shall be coordinated with appropriate natural resources managers.

3. Natural resources management plans shall be continually monitored, reviewed annually, and revised by DoD natural resources management professionals. They shall be approved in accordance with DoD Components' procedures at least every 5 years.

4. The natural resources management planning process shall invite public participation.

5. An integrated natural resources management plan shall meet the following criteria:

a. Natural resources and areas of critical or special concern are adequately addressed from both technical and policy standpoints.

b. The natural resources management methodologies shall sustain the capabilities of the natural resources to support military requirements.

c. The plan includes current inventories and conditions of natural resources; goals; management methods; schedules of activities and projects; priorities; responsibilities of installation planners and decisionmakers; monitoring systems; protection and enforcement systems; and land use restrictions, limitations, and capabilities.

d. Each plan segment or component (i.e., land, forest, fish and wildlife, and outdoor recreation) exhibits compatible methodologies and goals.

e. The plan is compatible with the installation's master plan and pest management program under DoD Directive 4150.7.¹

6. A determination that the public may not have access to use natural resources under DoD control shall be included and explained in the applicable integrated natural resources management plan.

7. The environmental impact analysis for any proposed activity or project shall include an analysis of the compatibility of the proposal's impacts with affected natural resources management plans and objectives. Only after necessary revisions to management plans are made shall the new activity begin.

8. The planning requirements of DoD Directive 4710.1² may be met within the integrated natural resources plan.

9. Integrated natural resources management plans shall be a primary consideration during the master planning process and for land use and development decisions.

B. Natural Resources Management Plan

The integrated natural resources plan shall implement the following policies and requirements for each applicable program area:

1. Land Management

a. DoD lands shall be managed to support military activities, improve the quality of land and water resources, protect wetlands and floodplains and their functions, abate nonpoint sources of water pollution, conserve lands suitable for agriculture, control noxious weeds, and control erosion.

b. Costs for maintaining grounds shall be minimized by providing the least amount of mowed areas and special plantings necessary to accomplish management objectives and by the use of low maintenance species, agricultural outleases, wildlife habitat, and tree plantings.

c. Land management is an important use of appropriated funds. Also, pursuant to 10 U.S.C. 2667(d) revenues from the agriculture and grazing outlease program are available for:

(1) Administrative expenses of agricultural leases.

(2) Initiation, improvement, and perpetuation of agricultural outleases.

(3) Preparation and revisions of natural resources management plans.

(4) Implementation of integrated natural resources management plans.

d. When appropriate, land management plans shall address soils, water resources, soil and water conservation, wetlands and
